

Round Box In Enamelled Guilloché Silver - European Work, 20th Century .

220 EUR

Period : 20th century

Condition : Très bon état

Material : Sterling silver

Description

Enamelled guilloche silver round box - European work, 20th century
Elegant round box in solid silver of title 935 thousandths, featuring a remarkable guilloché decoration covered with yellow-tinted translucent enamel, underlined by a fine blue enameled hoop. The lid features particularly fine radiating work, typical of early 20th-century European production, where the guilloché is enhanced by the transparency of the enamel. The interior is in vermeil (gilded silver), a traditional process that protects the metal and provides a warm, refined finish. This type of box, both decorative and functional, could serve as a pill box, powder box or small personal kit. Dimensions : diameter 5.7 cm ; height 1.8 cm Weight: 62 grams Overall good condition, with light patina from use. Enamel well preserved,
