Description

An elegant sideboard in solid walnut, made in northern Italy with a clear Venetian influence, dating from the mid-19th century. The piece features a linear front and is distinguished by its contoured sides, a design that echoes the cornered sideboards but reinterpreted with a softer, more continuous line, typical of 19th-century regional craftsmanship.The upper section consists of four aligned drawers with paneled fronts and central knobs. The lower section features doors, punctuated by molded panels that lend balance and coherence to the whole.The piece rests on shaped legs connected by a curved lower band, an element that visually lightens the structure. Crafted from solid walnut, it features a pleasant natural patina and a warm tone. Condition: Overall in good condition and structurally sound.
