

## Chest, Trunk, Decorated With Leather. 17th Century

490 EUR

Period : 17th century

Condition : Bon état

Material : Leather

### Description

The item is an antique trunk or casket made of wood covered in leather and decorated with gold geometric motifs. These types of containers, often referred to as caskets or portable chests, were used to store important documents, valuables, or as small travel trunks. Materials: Internal structure in wood (fir) with an external covering in dark leather. It features a central brass handle on top for carrying and a front mortise lock, typical of antique artisanal production. The casket is intact in all its parts, but the key is missing. Dated to the late 17th to early 18th century, of Italian origin. Dimensions: Width 35 cm - Height 13 cm - Depth 20 cm
