Width : 6°

Height : 184

Depth : 60

Description

Graphic and elegant in its simplicity. The four elements that form the petals are identical in shape and are attached to the shaft by four cylindrical pieces of wood, without screws. This trio of designers contributed to the theoretical and visual experimentation and creativity of the late 60s. They are, among others, the creators of the "Joe" armchair for Poltronova. The Kazuko luminaire was published by Candle, Italy.
