Description

An impressive large solid silver carafe, 800/000 fineness, completely and finely embossed, engraved, and hand-chiseled in Italy during the 1930s-40s. The fantastic handle features a large triton fish intertwined with a dragon. On the front, there is a large mask and the heraldic symbol of a noble Italian family. There are also leaves, dolphins, rocaille motifs, and countless intricate hand-carved details inspired by mythology. A unique and extremely rare piece, a sculptural object the likes of which have not been seen in a long time--perhaps intended only for museums or the palaces of noble families on commission. Imagine--it stands 83 cm tall!!!
