Description

Transverbération De Sainte Thérèse, Huile Sur Cuivre Du XVII Eme Siècle.L'extase De Sainte Thérèse, Huile Sur Cuivre Du XVII Eme Siècle.The composition is magnificent: St. Therese appears facing her "apparition" in full ecstasy, supported by two angels.St. Therese is in full swoon, and it's hard to tell whether her face is describing pain or spasms. The painter has captured the mystery of the saint's ecstasy, not only through her face, but also through her body, which slumps almost lifelessly as two beautiful angels support her.Before her stands her vision in the midst of clouds: this apparition holds in her hand the golden spear with a small fire at the end! This same spear that St. Teresa felt penetrate her to the depths of her bowels and leave her on fire with a great love of God!such intense pain seized
