Description

Pair of gate pillars in Beaujolais stone, cut in the 19th century, in perfect condition, ready for installation. The bases are 66 cm wide, 50 cm deep and 52 cm high, with generous 23 cm protruding wheel chases. The 50 cm² shafts are topped by molded capitals on three sides. The height under the capital is 264 cm, plus 26 cm of straight section under the molding of the capitals, i.e. 290 cm of straight section. Some customary restorations have been carried out in our workshop, such as plugging the sealing holes of the original portal, surface condition of a wheel chase and parts.
