Description

Vase in blue and white overlay glass with gold enamel decoration - European work, late 19th century SCN25OVR001Elegant blue overlay glass vase on a white background, decorated with stylized floral and geometric motifs enhanced with gold. The reserved decoration, typical of fine glassware productions, highlights the contrast between the cobalt blue and opaline white.The balanced, refined pedestal form and decorative vocabulary evoke late 19th-century Central European production, particularly the workshops of Bohemia (now the Czech Republic), renowned for their mastery of overlay glass and enamelled decoration.This type of piece was intended for a bourgeois clientele, appreciative of elegant, colorful decorative objects.Attribution: Bohemian work (to be compared with productions by Moser
