Description

Large pair of decorative pinecone-shaped balls in pâte de verre, Murano workshops circa 1970-1980.A pair of large pinecones in double-layered pâte de verre, probably Venice, Murano circa 1970-1980.a rather unexpected object of very fine workmanship with a double layer: the interior in amber glass in the manner of aventurine and covered with a thick layer of slightly bubbled white glass.a beautiful, unusual object somewhere between a paperweight and a staircase ball, or simply a beautifully stylized pine cone.a superb decoration thanks to the aventurine effect.a superb decoration for the holidays or simply a beautiful Christmas gift.perfect condition.beware, the glass is solid and the set is very heavy.height: 26 cm the large one and 22 cmwe deliver and ship anywhere in
