Description

Small Louis XIII walnut entre-deux table - 17th century
Charming little solid walnut entre-deux table, Louis XIII period, 17th century. It rests on four turned legs decorated with rings, joined by an H-shaped brace, typical of 17th-century production. The sober belt highlights a framed top, showing a particularly warm old patina, with beautiful traces of use that reinforce its authenticity and character. The table's well-balanced proportions are a perfect complement to the tabletop's elegant design. Balanced proportions make it ideal as a side table, sofa end or decorative element in an antique or contemporary interior. Dimensions: Height: 69 cm Width: 65 cm Depth: 42.5 cm Very nice used condition, with wear and marks of time in keeping with its age.
