Description

Orthodox bronze cross on a stand - Mount Athos tradition - 17th-18th century
Description Beautiful double-sided Orthodox bronze cross with architectural decoration, composed of niches containing small figures of saints in relief. The piece, in the Byzantine tradition, evokes a micro-iconostasis, enriched with symbolic motifs and a small cross visible in an upper compartment. Mounted on a turned shaft with a base, it displays a deep, antique patina with consistent oxidation. Condition Some old wear and irregularities, but in good overall condition.
