Depth : 4

### Description

Elephant" table lamps in travertine by Fratelli Mannelli, circa 1970. The sculpted base represents a stylized elephant with compact volumes and simplified lines. The travertine, left in its natural shade, reveals the mineral nuances and cavities characteristic of the stone. The cylindrical shade in woven fiber diffuses a soft, warm light, creating a subtle contrast between the raw material and the plant texture. Dimension with shade: 62 cm Published by Fratelli Mannelli, Signa (Italy), circa 1970.
