Description

British painter (late 19th century) - Coastal landscape with castle and fisherman. 41 x 66 cm. Oil on canvas, unframed. The composition depicts a wide coastal view with, on the left, a turreted medieval castle on a rocky promontory, and in the background a mountain range dissolving into the haze. In the foreground, a fisherman sits at rest in a boat beached among marshy vegetation; further along the beach, small figures can be seen going about their activities. The diffuse light and cloudy sky, rendered with free and impasted brushwork, reflect the British landscape tradition of the late nineteenth century, influenced by the Romantic school in the manner of Constable. Condition report: Lined canvas. Good state of conservation of the pictorial surface; signs of aging and wear are present. All
