Description

Very beautiful stereoscopic glass plate. format 8.5 x 17 cm. Pont de la Tournelle and Notre Dame de Paris. The Ferrier et Soulier company was founded by Claude-Marie FERRIER (1811-1889) and Charles SOULIER (1816-1886) in 1859. It specialized in the production of stereoscopic views. Soulier's plates depicted a variety of subjects, including landscapes, monuments, urban scenes and historical events. Stereoscopic glass plates were considered high-quality products and aesthetically superior to paper stereoscopies. They were heavier and more fragile, but offered better image quality and a more immersive visual experience. The works of Ferrier and Soulier are highly sought-after by collectors today. link to <https://www.lavalisearlesienne.com/product-page/ferrier-et-soulier-plaque-de-verre-vue-st%C3%A>
