

Dagoty, Attributed To - Empire Period Litron Cup - White And Gold Porcelain

220 EUR

Signature : Manufacture Dagoty, attribué à

Period : 19th century

Condition : Très bon état

Material : Porcelain

Description

Empire period litron cup in Paris porcelain, a beautiful model decorated with a rich frieze of Greek figures, gilded with fine gold matte and glossy finish (burnished with agate). High-quality production - the gilding is particularly deep and the motif very Empire period. Unsigned, the cup The quality of the decoration and gilding could be the work of several major Parisian manufactures, but the presence of the stylized floral medallion in the center of the saucer leads us to attribute this cup to Dagoty, who appreciated these highly symmetrical radiant, solar or floral motifs in the center of plates, saucers and platerie pieces. The set is in excellent condition. The gilding, of very fine quality, is very fresh, no accidents. Cup height: 6.3cm Cup diameter: 6.2cm Saucer diameter: 12.6cm
