Description

18k gold tie pin, double interlaced rings set with diamonds and sapphires - Antique work Refine tie pin in 18-carat gold, adorned at the top with an elegant motif of two interlaced rings, symbolizing union and harmony. Each ring is finely set: one with diamond chips bringing a delicate scintillation, the other with calibrated sapphires in deep tones, creating a subtle and particularly aesthetic contrast. The whole testifies to meticulous jewelry workmanship, typical of late 19th or early 20th century production. The stem, slender and slightly twisted at the top, reinforces the elegance of the piece and emphasizes its precious character. Presented in its antique case, this pin makes a fine collector's item, both a piece of ceremonial jewelry and a gentleman's accessory. Weight: 2 grams Length: 6.5 cm Very
