Height : 35+40+45

Depth : 30.5+33.5+36.5

Description

Set of 3 neoclassical side tables with tops made of oxidized mirrored glass in the style of Maison Jansen. These elegant and light-footed tables, crafted from solid brass, captivate with their clarity and austerity. Neoclassical elements such as the fluted legs, the tapered feet with their profiled design, and their small ball finials are key design features. Straight, square joints and, on the smallest table, a cross-base with a neoclassical rosette are equally distinctive design features. The oxidized mirror glass tabletops feature shades of blue, gray, violet, and gold. The glass has a mottled or marbled appearance and appears vibrant due to the interplay of colors. The table frames have a beautiful patina, the glass is intact. Dimensions: Length: 43 + 48 + 54 cm Width: 30.5 + 33.5 + 36.5 cm Height: 35 + 40
