Description

A rare and precious domed treasure chest in patinated bronze, carefully chased with the symbols of the Duchy of Lorraine: croisons , thistles crown bicéfale ; finely worked this small chest will keep your treasures and with its twisted ring handle take it everywhere , it will lock the secret of your jewels with its key ; a purely romantic piece from the early 19th century, under the reign of Charles X. Decorative and highly precious, this "moyennageux" box has all the qualities of a fine object of curiosity, and is not just a vain trinket, but a small, carefully-crafted, decorative work of art in its own right,
