interior design, specially conceived for the former owners of the premises. Originally, this lantern adorned the entrance hall of a large estate on Cap d'Antibes. It was a commissioned work designed by an interior architect and specially made for this residence. Rarely elegant, this unique piece immediately catches the eye with its proportions and architectural character. It will naturally find its place in an interior of great taste, whether classic or contemporary. It's fully electrified with earth connection and can be installed immediately. Condition report: A few slight bends visible on the upper crown, not serious and in no way altering the beauty or solidity of the whole. We are selling it in its beautiful used and preserved condition. Nota Bene: Attention interior designers and decorators: this magnificent lantern will be the starting point for a tasteful decoration. It would fit perfectly in the entrance hall of a hotel, a mansion, a large estate or even a château. Modern commissioned work, it also offers the possibility of being suspended by a very large chain - up to 3 meters and much more if you wish - which can be dressed in a sumptuous heavy velvet sheath according to your decorative scheme. A spectacular piece that we highly recommend. Dimensions: Height: 85 cm Diameter: 75 cm Careful packaging and free shipping throughout France and Europe by Galerie De Cicco.
