

## Small 17th-century Church Bench France

750 EUR

Period : 17th century

Condition : Très bon état

Material : Solid wood

Length : 97,5cm

Width : 34cm

Height : 84cm

### Description

Small oak church pew with two-part openwork and molded backrest, monoxyl seat, two scroll-shaped armrests, column feet at the front and straight at the back. The leg supports were originally very long and supported several benches, which were shortened to individualize this bench (later). Very rare in these dimensions. France, Picardy or Northern France, 17th century
