

## Pair Of Gothic Solid Bronze Candlesticks, Late 15th/early 16th Century

1 600 EUR

Period : Before 16th century

Condition : Bon état

Material : Bronze

Diameter : 14 cm

Height : 25cm

### Description

These Flemish-style Gothic candlesticks are made of bronze decorated with balusters and discs. They are topped by a cylindrical base with two rectangular windows for wax drainage, and rest on a wide circular base. Despite their subtle differences, the two candlesticks form a harmonious whole.
