1 800 EUR

Period : 20th century

Condition : Très bon état

Material : Gold

Length : 1,76 cm

Width : croissante de 5,4 mm à 9,25 mm

Description

Half hoop earrings in 750/°° yellow gold (18 KT, hibou hallmark) in the shape of drops, curved to catch the light. Each hoop is studded with diamonds set in the mass, each at the center of a star formed by a deep chasing with a particularly designed relief. These qualitative chiselings produce a slightly matte effect around each diamond, which enhances their vivid brilliance..... This arrangement of diamonds on the ring, and the stars surrounding them, give this jewel its "constellation" appellation. The closure system consists of a pin (for pierced ears) and alpas systems, the most secure available. Beautifully crafted, they have been designed to be weightless for comfortable wear while offering beautiful luminous volume. Total diamond weight estimated for approx. 0.15 ct Gross weight: 9.50
