

Revolver Le Municipal Saint Etienne

1 250 EUR

Period : 19th century

Condition : Très bon état

Material : Metal

Length : totale 20 cm

Description

We present this 8 mm revolver from Saint Etienne, LAMURE & GIDROL model 92, over-the-counter category D. It is in its original bronze and in good condition. What's special about this one is that on the right-hand side, there's a spring to hold the barrel axle more firmly. I struggled to find the model and finally found it with the text. It would seem that it is given as the municipal of the city of Marseille. When cocked fully without cartridge, there is a slight play in the barrel but when struck, it strikes absolutely in alignment, rare model, good overall condition. Weight 751 gr Port extra(E26)
