Description

Baccarat modèle Epron. One of the Manufacture's most refined creations, listed in the catalog as early as 1907 (shape 11432, size 11237) and distinguished by its appellation from 1933. This decanter seduces with the purity of its light crystal and the subtle sophistication of its cut decoration of 9 points and a star-shaped foot that captures and disperses light with rare elegance. Unstamped, this decanter pre-dates 1936, but still has its small original paper label and price tag! Perfect condition (the presence of the labels suggests that this decanter has never been used).
