Period : 19th century

Condition : En l'etat

Description

Antique Italian bronze sculpture depicts a standing stallion with a naturalistic, athletic build and highly defined musculature. The horse is captured in a formal standing position on an integral, rectangular bronze base with a textured, earth-like surface. The piece features two distinct hand-engraved signatures on the vertical face of the base: "Secchi sculptr" on the front and "Muñoz sculptr" on the side. The figure is rendered with fine anatomical detail, including a slightly arched neck, a textured mane, and a long tail with visible hair strands. The sculpture is finished in a dark brown, multi-tonal patina that shows variations in color and sheen across the body. Its physical dimensions are approximately 38 centimeters in length and 11 centimeters in width, with a total weight of 7 kilograms
