

Large Black Attic Earthenware Vessel With Double Handle

1 495 EUR

Period : Before 16th century

Condition : En l'etat

Material : Terracotta

Diameter : 23

Height : 19

Description

Origin : Athens, Greece Era : 500 BC Dimensions : 23 cm diameter x 18 cm height An exceptional example of black Attic ceramics, made in Athens, Greece, circa 500 BC. A large piece in perfect condition. Its bulbous shape is remarkable, with two lateral handles. The upper part is adorned with a magnificent black glaze and the rim and opening are elegantly raised. Originally intended for holding liquids or preserving food, it is now used as a superb flower vase. In perfect condition, it measures 23 cm in diameter. Provenance: Canadian collection, 1990s, acquired from Bonhams London.
