Description

Elegant genre scene depicting a country concert or a gallant gathering in a clearing, executed in oil on canvas in the 19th century, Napoleon III period. The composition, particularly poetic, features several characters gathered in a wooded landscape bathed in soft, vibrant light. The attitudes, elongated silhouettes and search for atmosphere evoke the spirit of the pre-symbolist painters and the Nabis school. The work seduces with its warm, nuanced palette, its intimate atmosphere as well as the decorative quality of its richly molded and gilded antique frame, typical of the Napoleon III taste. This painting has a real decorative presence and recalls the musical and pastoral scenes inspired by the 18th century revisited at the end of the 19th century. Frame:
