Description

Charming late 19th century animated landscape depicting a peaceful river bordering a village dominated by its church steeple.The composition offers a calm, luminous atmosphere, typical of naturalistic landscapes of this period. The reflections in the water, the softness of the sky and the lively touch bring a great deal of freshness and poetry to the whole.We also note the discreet presence of a figure at the side of the road, as well as a moored boat, elements that bring life to this charming rural scene.The work is done in oil on canvas and bears a signature in the lower right.Very decorative, this painting will find a perfect place in a classic interior, country chic or collection of antique paintings.
