Description

A polished cast bronze candlestick...With its original wick...Removable...With gadrooned friezes...And above all with an engraved armorial...One of cardinal...!I'm starting a search to find out which one...It might be...? Pierre de Bonzi, 1631-1703...From TOULOUSE - FRENCH...It's the closest to the coats of arms that I found...From the end of the 17th century, around 1680...From the SOUTH WEST - FRANCE...In beautiful condition...Just a tin resolder on the underside...Some wear deformations around the base...These can be rectified by a restorer...Quotation on request...And slight wear to the engraving which over time has noticeably become less sharp...!!!A simple but chic model...With a wide, doucine base...I just cleaned and polished it a bit...!Weight
