### Description

Important pair of candelabras in finely chased and gilded bronze, with rich rocaille decoration animated by putti supporting leafy arms of light. The curved bases rest on black veined marble shafts, offering an elegant contrast to the gilding. The particularly dynamic movement of the arms, the quality of the chasing of the figures and the richness of the gilding bear witness to a fine Parisian production in the Louis XV taste, dating from the second half of the 19th century. Very decorative set with great presence, ideal for a mantelpiece or important classical decor."
