Description

Walnut desk table, made in the first half of the XXe century and bearing the stamp of Altiligérien master cabinetmaker Henry Geneste, a guarantee of quality and traditional craftsmanship.The top, with its sober, balanced lines, rests on four elegantly tapered legs.In the front, a wide, finely molded drawer testifies to the attention to detail and offers practical storage space.The warm patina of the walnut enhances the natural grain of the wood and lends the ensemble a refined presence.This piece, both functional and decorative, blends easily into a classic or more contemporary interior.An authentic, signature desk that will appeal to lovers of quality antique furniture.*********Era: 1st Part XXthVery good conditionWaxed finishDelivery possible in France and internationally on
