

Harvesting Table

380 EUR

Period : 19th century

Condition : Etat d'usage

Material : Oak

Diameter : 101

Height : 74

Description

Harvesting table, oak, 19th century. A typical table from the South of France, used in the vineyards. They were stored in the little houses you see in the vineyards, and taken out for the winegrowers' lunches. When folded, they don't take up much space. This one is round.
