850 EUR

Signature : Thonet

Period : 20th century

Condition : Très bon état

Diameter : 46

Height : 77

### Description

Elegant Thonet coffee table with a circular top, made in Austria in the early 20th century. Characterized by the famous steam-bent wood technique, it features a light and sinuous structure with refined arched elements that evoke the style of the Vienna Secession. The decorated top adds a further ornamental element, making this model particularly refined and decorative. Brand-marked with the Thonet logo, it corresponds to the "Lesetisch" model no. 1/9201a, featured in the Thonet catalogs of 1888 and 1904. An iconic piece of Austrian design, perfect for both classic and contemporary settings.
