Depth : 11,5 centimètres

Description

A piggy bank with systems...Molded cast iron...All painted...American provenance...Affigy of a banker sitting in his director's chair...!Dated DECEMBER 23 1878...With a whole bunch of inscriptions molded into the decor...Slightly missing on the back and at the opening to retrieve the coins.....But not too annoying...!The systems work perfectly...When the coin is placed on the hand it swivels to go into the slot of the money box...When the coin has fallen it touches a counterweight which makes the head move...This is a beautiful collector's item...Weight ... 798 gr
