Height : 41 cm

Depth : 24 cm

Description

fragment of an Italian neoclassical sculpture in statuary marble. Early 19th century TURIN work depicting MEDUSA, executed in statuary white marble. the face, treated with great gentleness, presents idealized features inspired by classical antiquity, while the hair, animated by long waving locks, evokes the iconography of MEDUSA. the sculpture retains a strong decorative presence and bears witness to a refined production certainly intended for palazzo decor or for an aristocratic PIEMONTE winter garden.
