Height : 39

Depth : 15

### Description

We are pleased to present an elegant set of three wall sconces made in Italy in the late 19th century. This set is characterized by its classic lines and exquisite gilded brass construction. One sconce features three arms, each with three bulbs, while the other two have two arms, each with two bulbs. These wall sconces boast a classic design. The arms feature curved, sinuous lines with traditional ornamental details. The central body, which begins at the top with a decorative pinecone and extends downward in the shape of an elongated cone, serves as an elegant focal point on the wall. The polished gilding creates a refined visual accent. A set of three lamps is also perfect for spaces where you want decorative continuity between the lamps, such as a long hallway or a spacious living room.
