### Description

We are pleased to present this stunning 19th-century Italian walnut gueridon table. This exceptionally refined table features distinctive characteristics. The tabletop has a unique shape with a contoured edge, beneath which lies a thick, smooth band that lends it solidity. The tabletop rests on a single vertical leg with a turned decoration of concentric rings at the base, typical of classical cabinetmaking. It is finished with three curved, sinuous legs that lend stability and elegance to the structure while minimizing its footprint. The table is in good condition, with minimal signs of wear consistent with its age. This small gueridon table fits easily into any setting: it is perfect for enhancing a living room, an entryway, or any room in the house where it will be admired by all your guests. If you love
