

Black Stone Study Of A Female Forearm Holding A Cup Of Tea. Late 18th Century.

240 EUR

Period : 18th century

Condition : Bon état

Material : Paper

Width : 30 cms

Height : 45,5 cms

Description

Study in black stone of a forearm and a female hand carrying a spoon towards lips that are not visible, the other hand lightly holding a cup with its saucer resting on an entablature. Shadows and highlights are well defined, with the light coming from the left. The background against which this set stands out is finely hatched to accentuate the relief. Sleeve and napkin priming on arm and hand. 'Charming set. Late 18th or early 19th century.
