Description

This beautiful round box is made of brown tortoiseshell. The lid is adorned with a highly detailed miniature, painted on very fine canvas, depicting a wooded landscape with distant perspective and animated with characters. The miniature is encircled by brass and protected by curved glass. The back of the box is adorned with a crucifix monstrance with rays of light and clouds on an ornamented base, framed by laurel garlands. All around, a frieze of angels' heads. The decoration is finely executed in hot-pressed tortoiseshell. Fits perfectly. Shell in perfect condition. The miniature is missing and chipped under the glass, but this does not affect the legibility of the scene. **VERY GOOD CONDITION**, Restoration period circa 1815.
