Description

Superb large Baccarat vase decorated with multicolored iris. A well-known model among enthusiasts, this piece is really very pretty, with vivid colors and a breathtaking reflection of light. The floral decor is acid-etched and finely enameled on top. The whole is enhanced by gold at the base and neck. This is the large 30.5 cm diameter and 11.5 cm diameter scroll vase. I couldn't pass it up because it's too beautiful and I'm sure, despite its flaw, it will please an enthusiast. In fact, it has a crack under the base of 3 cm, which is quite present but invisible once the vase is rested. What's more, there's nothing missing. By experience, these high-quality vases sell for between 1,200 and 1,500 euros, so I'm offering it at a third of that price to take the flaw into account. I repeat, everything is invisible once
