

Drapers'aune Signed Jc Hars Dated 1833

1 500 EUR

Period : 19th century

Condition : Bon état

Material : Wood marquetry

Length : 83,2 cm

Description

Magnificent draper's aune with handle in two turned woods. Nice marquetry work bearing the inscription "J*C*HARS*1833*", which probably corresponds to the owner's initials and name. Aune not graduated but featuring nice engraved markings. Nota: Decorated aunes generally belonged to well-established master drapers or tailors; they served as a measuring tool but also as a sign of professional status and prestige. The length is interesting as less than that of the official Paris aune (approx. 1.188 m). It could therefore correspond either to a regional auger or a prestige portable model. Dimension: length 83.2 cm. Probable France, dated 1833.
