

## Fountain With Child Straddling A Fish

1 380 EUR

Period : 20th century

Condition : Bon état

Width : 80cm

Height : 93cm

Depth : 55cm

### Description

Park fountain forming a basin in the 18th century style. Resting on an oval pedestal, a shell serves as a receptacle, while a cherub sits on a fish whose raised tail acts as a backrest. The fountain is functional, with a closed-circuit pump pumping water out of the fish's mouth. Work dating from the mid-twentieth century. Very nice decorative aspect!
