Pair of patinated bronze candlesticks depicting strange stylized imps or fauns holding a wide drape forming the arms of light. The figures rest on bases adorned with fantastical creatures in a setting inspired by the symbolist and mythological worlds. Decorative decorative work from the Art Deco period, circa 1925-1935, featuring a finer search of lines and elegant graphics typical of the decorative arts of the inter-war period. Very fine patina. Very beautiful antique patina and fine cast quality. These candlesticks offer an original decorative presence, at once mysterious and refined. It's a very nice piece. Good overall condition.
