

French Vase-shaped Table Clock (or "urn Clock"), Napoleon III Period

500 EUR

Period : 19th century

Condition : Bon état

Material : Bronze

Width : 11

Height : 37

Description

Body in "Sèvres Blue" porcelain

The two main spheres/urns are made of porcelain in a deep, intense cobalt blue

Gordon bronze mount.

The supporting structure features richly detailed workmanship.

Tripod base with animal paw feet (goat/feline), decorated with acanthus leaf motifs.

Dial: The dial is in white enamel, finely hand-painted with delicate floral garlands between the numerals. Arabic numerals indicate the hours, paired with small red numerals for the minutes on the outer edge. The brass hands are finely pierced and worked.

Roma 00199

The "Rhinestone" Bezel: The dial is surrounded by a bezel embellished with a row of faceted crystals (rhinestones) that imitate diamonds, a detail designed to reflect the light of candles or the first lamps of the era.

Watch made in France during the Napoleon III era.

The complete but non-functional movement requires servicing.

Height 37 cm and maximum width 11 cm.
