Description

A European painting in the Romantic style depicting an evocative scene of daily life along the banks of a lake or river. In the foreground, two young peasant women, dressed in traditional costumes, gaze toward the horizon while one of them makes a gesture of greeting or calling out toward the water. The delicate atmosphere of the landscape, rendered in soft, nuanced tones, lends the work a sense of tranquility and poetry typical of 19th-century landscape painting. Origin: France Period: early 1900s Dimensions: 169x119h cm SKU: 17438
