Length : 49

Width : 14

Depth : 10

Description

Pair of Art Deco sconces from the 1930s, in cream lacquered metal and molded optical glass with geometric decoration. Their sober, elegant lines, typical of French modernism, diffuse a soft, refined light thanks to their striated glass tulips. A model of architectural design, ideal for sublimating an Art Deco, contemporary or minimalist interior. Era: circa 1930. Materials: lacquered metal and pressed molded glass. Condition: good used condition, with light patina of age.
