Description

Large sculptural glazed ceramic vase, a work of art from the second half of the 20th century, in the spirit of French production from 1960-1970.This piece features a slightly curved free form, enlivened by a stylized decoration depicting an elongated female silhouette, treated in a very refined and graphic manner.The nuanced glaze blends gray, brown and turquoise blue tones with a beautiful crackled effect and deep variations in material reminiscent of certain research in Brutalist ceramics and informal art.Highly decorative with its sculptural presence and unique character, this vase can be presented on its own as an objet d'art or integrated into a modernist, wabi-sabi or contemporary interior.Dimensions:Height: 30 cmWidth: 20 cm approx.Good overall condition with slight
