

Monoxyl Cane In Precious Wood, Macassar Ebony

220 EUR

Period : 20th century

Condition : Très bon état

Length : 85

Description

Elegant monoxyl cane made from Macassar ebony, a precious wood known for its dark, contrasting color, ranging from intense black to dark brown with light brown to golden veins. Macassar ebony is also one of the densest woods, renowned for its strength. The entire cane measures 33,46 inches in length, and is finished with an ahorn ferule. 20th century.
