

Napoleon III Art Nouveau Gilded Bronze Photo Frame

140 EUR

Period : 19th century

Condition : Très bon état

Material : Bronze

Diameter : 14, 6 cm

Description

Delightful under-glass photo frame in gilded bronze, finely chased with a frieze of rais - de - coeur embellished with a double strand of pearls. The back of the frame unscrews (original screw), allowing the photo to be installed. It can be hung on the wall by means of its suspension ring. It can be installed on a piece of furniture thanks to its wide crutch. The frame is beautifully crafted, in gilded bronze and not brass, like many of the photo frames of this period and yet advertised as bronze. You'll particularly admire the richness of the decoration in important relief. I replaced the photo of the young child in it with an old sheet of hand-marbled paper for binding. Delightful with its multitude of mixed colors! Epoque late 19th century - early 20th. Dimensions: Diameter: 14.6 cm Interior photo
