Description

Charming pair of wall sconces from the 1950s, made of painted metal and decorated with delicate porcelain flowers. Elegant and highly decorative, these sconces embody the refined romantic aesthetic characteristic of mid-twentieth-century European lighting design. The sculptural metal structure is sublimated by finely detailed porcelain floral elements, creating a soft, sophisticated composition with assertive vintage charm. Their harmonious proportions and decorative appeal make them ideal for bedrooms, hallways, powder rooms or classically inspired interiors. The combination of painted metal and porcelain flowers lends this pair a lightness and elegance typical of high-end 1950s decorative lighting. Period: 1950s Materials: Painted metal
